

星美术馆筹备组将于2021年7月30日在SSSSTART研究中心推出“艺术家谱系研究之八——唐永祥：黑桥”。本次展览将以唐永祥最新作品《绿色背景上一棵植物》为核心线索，展开对艺术家个体认知经验和绘画方式的多重讨论。

唐永祥现生活工作于北京，“黑桥”即指向艺术家在北京早期工作的艺术区。此次展览是唐永祥首度于上海进行的个人展览项目，迥异的语境带来所指的松动，“黑桥”也许不再是一个广为人知的艺术区，其所指将在此被扩延。唐永祥惯于去除命名对作品的框限，也乐见因应获得的更多样的阅读路径。

Start Museum Preparatory Team will present the eighth exhibition of Genealogy Study of Artists **Tang Yongxiang: Hei Qiao** at SSSSTART Research Centre on 2021 July 30th. The exhibition will focus on Tang Yongxiang's latest work *A Plant on Green Background* (2021) and carry out multiple discussions on the artist's individual cognitive experience and painting methods.

Tang Yongxiang lives and works in Beijing. "Hei Qiao" refers to the art district where the artist worked in his early days in Beijing. The exhibition is Tang Yongxiang's first solo exhibition in Shanghai. The different context loosens the signified. "Hei Qiao" may no longer be a well-known art district, and its signified will be extended. Tang is used to removing the restrictions that naming places on his works, and is always happy to see more kinds of reading paths to his works.
